## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 56-58, 64-70, 72, 78-84, and 86-88 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suga et al. (US Patent 5,286,540) in view of Oas et al. (US Patent 4,357,288) as detailed in the previous office action.
3. Claims 62 and 76 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suga et al. (US Patent 5,286,540) in view of Oas et al. (US Patent 4,357,288), and further in view of Rekers (US Patent 5,049,605) as detailed in the previous office action.
4. Claims 61, 63, 75, 77, and 89-97 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suga et al. (US Patent 5,286,540) in view of Oas et al. (US Patent 4,357,288), and further in view of Schmidt et al. (US PgPub 2004/0063830) as detailed in the previous office action.

### *Response to Arguments*

5. Applicant's arguments filed August 8, 2007 have been fully considered but they are not persuasive. Suga et al. teaches that using di(alkylbenzylidene) sorbitols is conventional (column 1, lines 28-34), albeit problematic. "A prior art reference that "teaches away" from the claimed invention is a significant factor to be considered in determining obviousness; however, "the nature of the teaching is highly relevant and must be weighed in substance. A known or obvious composition does not become patentable simply because it has been described as somewhat inferior to some other product for the same use." In re Gurley, 27 F.3d 551, 554, 31 USPQ2d 1130, 1132 (Fed. Cir. 1994)" See MPEP §2145(X)(D) 1. Suga

Art Unit: 1791

et al. uses the sorbitols and also points out that these compounds are utilized by other inventors (column 1, lines 28-34), which encourage experimentation to find a successful way to utilize them.

*Conclusion*

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
